GRIMSBY HIGH SCHOOL WELL STAFFED FOR EFFICIENCY

Donald Awde, B.S.A., Commencing His Third Year As Principal — Firm Believer In The Saying "A Happy Student Is A Good Student" — Other Teachers Have Fine Records.

Commencing his third year as Principal of Grimsby High School, Donald Awde took time out last Friday while his two hundred students enjoyed a Friday night dance, to give The Independent a brief thumbnail sketch of the members of the staff of the school, which last year enjoyed an all time high, both in academic work and social activities.

"Properly supervised leisure hours for the students make for greater success in the classroom," said Mr. Awde, while outside the door another group of freshmen went through the hoop in the usual September initiation. A firm believer in the saying that a happy student is a good student, Don Awde is looking forward to another commanding year at the school he became the leader of in September, 1947.

The successor to P. V. Smith hails from Aylmer, Ontario, and attended schools there and in Hagersville. He graduated from the Ontario Agricultural College, and following a year at the College of Education, came to Grimsby in 1936, where he has remained on the staff of G.H.S. He served four years with the R.C.A.F. He teaches Grade 13 Chemistry and Physics, Botany and Zoology and Chemistry to Grade 12, and also Guidance in Grade 12. His keen interest and knowledge of athletics has kept G.H.S. well represented in district football and basketball.

Form teacher of Grade 10A is (Continued on Page 8)

MERRITTON SAID FAR FROM BEING BUSTED

At Present Time The Town Has No Money In The Bank But It Has A Lot Owing To It.

There has been considerable comment made on the report of the town clerk at the last meeting of Merritton council, when he said that the town "was broke." Mayor Skipper, in going into the statement in further detail states that the town is not "broke" — or any place near it. Mayor Skipper agreed that the clerk had been quoted correctly but the statement did not tell the whole story.

"We haven't any money in the bank, but we do know that substantial government grants will be received shortly. I don't doubt that there are innumerable other municipalities in the province in a similar position. We're no more 'broke' than a man who has no money in the bank, but knows that people owe him money, and will pay him soon," said Mayor Skipper.

"We set the budget early in the year. Despite the fact that we boosted our estimates for county rates by \$3,000 from last year, we (Continued on Page 8)

FRUIT WANTED

Lincoln Loyalist Chapter, I.O.D.E., is again arranging for its annual shipment of fruit from Grimsby orchards to Sunnybrook Hospital, Toronto.

These contributing are asked to take their fruit to Mrs. E. A. Buckingham, 152 Main St. W., or to Miss Olive Kitchen, No. 8 Highway, opposite Beach School, by Friday noon, Sept. 23rd.

Our boys always look forward to the arrival of this fruit, so we would request our members and friends to remember that it is THIS Friday for the annual fruit shipment.

SEVEN BISHOPS OF NIAGARA SINCE 1875

Right Reverend W. E. Bagnall Consecrated Yesterday, Is Youngest Bishop To Occupy The See Of Niagara.

The consecration yesterday of the Right Revd. W. E. Bagnall as a Bishop in the Church of God and his enthronement in his Cathedral Church as Bishop of Niagara recalls some interesting facts about his predecessors.

The Rt. Revd. Thomas Brock Fuller, consecrated May 1st, 1875, at the age of 65 was Bishop for nine years.

The Most Revd. Charles Hamilton, also consecrated on May 1st, was Bishop from 1885 when he was 51 until 1896 when he was translated to the See of Ottawa. He died in 1919.

The Rt. Revd. Philip Dumoulin was consecrated on June 24th, 1896, at the age of 62 and continued as Bishop of Niagara until his death in 1911.

The Rt. Revd. Wm. Reid Clark, consecrated June 24th, 1911, was 62 and his episcopate lasted fourteen years.

The Most Revd. Derwyns Trevor Owen became fifth Bishop of Niagara on her consecration on June 26th, 1922. He was then not quite 49. He was translated to Toronto in 1932.

The Rt. Revd. L. W. B. Broughall was consecrated on January 25th, 1932, and gave of his distinguished ability to the duties of his office for a longer period than any of the others—nearly 17 years.

The Seventh Bishop, whose episcopate began yesterday, at 46 becomes the youngest occupant of the See of Niagara.

The official signatures of the (Continued on Page 3)

V.O.N. SERVICE GROWING

VISITS DURING PAST THREE MONTHS SHOW BIG INCREASE

The months of June, July and August were very busy ones for the Lincoln County Branch of the Victoria Order, the nurse-in-charge Miss D. Small, reports.

The report for the three month period gives an inkling of the manner in which the work of the order is expanding.

The report reads:

In June we carried 179 patients, 66 being new patients, admitted during the month and to these patients we made 733 visits, 249 visits to mothers and babies which included one home delivery, 85 to cancer patients, 187 to patients with long term illness, 100 to medical and surgical patients and 91 for Health Supervision. 17 visits were made to patients on return from hospital, 17 to D.V.A. patients and 16 to M.I. patients.

Fees collected include 208 paid visits, 128 part pay and one paid delivery, making \$256.66. D.V.A. cheque of \$35.00 and M.I.L. cheque of \$17.50, making a grand total of \$410.60. Miss D. Small was on vacation for the month and Mrs. McArthur supplied for her.

In July we carried 214 patients,

61 being new patients admitted during the month and 770 visits were made to these patients, 297 to mothers and babies which includes one home delivery, 85 to cancer patients, 187 to patients with long term illness, 100 to medical and surgical patients and 91 for Health Supervision. 17 visits were made to patients on return from hospital, 17 to D.V.A. patients and 16 to M.I. patients.

Fees collected include 208 paid visits, 128 part pay and one paid delivery, making \$256.66. D.V.A. cheque of \$35.00 and M.I.L. cheque of \$17.50, making a grand total of \$410.60. Miss D. Small was on vacation for the month and Mrs. McArthur supplied for her.

August broke all previous records in visits, 833 being made to 230 patients, 64 being new patients admitted during the month, 265 visits to mothers and babies, 71 to cancer patients, 205 to patients with long term illness. If you follow our reports you will note the added numbers of visits to the patients in this group, which adds a (Continued on page 8)

HOUSE OF COMMONS AWAKENED

Grimsby Peaches

J. ORION LIVINGSTON
Editor The Independent

There was great confusion in the House of Commons yesterday afternoon when the members gathered for the daily opening session for they were buried under a deluge of juicy Grimsby Peaches, so also was the gallery of the Fourth Estate.

It is safe to say that never in the history of any parliament in the world, or any Press Gallery, have the members ever gazed upon or eaten such lovely, juicy, flavorful fruit. And it was grown, packed and shipped from Grimsby.

Three years ago the daily newspapers of Ontario and Quebec saw fit to attack the red leno covering used by the growers of the Niagara Peninsula on their baskets that contained various types of fruit, particularly peaches and grapes. This newspaper got tangled up in that controversy as did N. J. Mac Lockhart, then Member of Parliament for Lincoln.

They also entered into the picture a member of parliament from the wild and rocky bush country of British Columbia, by the name of George Cruickshank. He saw fit to take advantage of the argument and boom B.C. peaches and apples, going so far as to present every member of the House with a box of B.C. peaches and apples. He has never let that campaign die. He probably will now.

It was my pleasure on Tuesday afternoon to stand in the packing house on the farm of Cecil M. Bonham and see 290 cartons of Grimsby grown peaches being packed for shipment to Ottawa for the members of the House of Commons. No finer fruit was ever grown on any farm in any country in the world. For size, color, flavor, juice and what have you, it could not be beaten anywhere. The packing was done by the two most expert women fruit packers in Ontario, Mrs. Wray Fisher and Mrs. Wally Philips, under the personal supervision of Mr. Bonham.

The 290 cases of 40's—22's—24's were shipped directly to Harry P. Cavers, M.P. for Mr. Cruickshank, is your face red?

Lincoln, in care of his office, in the Parliament Buildings, and from his office each case was taken by page boys and a case placed upon the desk of each member of the House. A special case was dispatched to Prime Minister St. Laurent. Also, 10 special cases, especially packed, were shipped to the members of the Press Gallery. As Mr. Bonham remarked "those Press boys do not make too much so we give them a little extra."

The brown cardboard cartons were printed in red and green inks with the following lettering "Ontario Grown Peaches—Packed For Those Who Appreciate Quality." This package, incidentally, is a standard package in this district.

This fruit was picked, packed and shipped by Mr. Bonham at the special request of the Niagara Peninsula Fruit Growers' Association of which he is a member of the executive committee.

I also stood on the fruit loading platform at the C.N.R. station and watched this fruit loaded in a special compartment of the Ottawa C.N.R. Express fruit car under the personal supervision of "Bill" Moore, C.N.R. Express supervisor of the fruit train.

Having sampled some of these luscious peaches I quite agreed with the doughty Mr. Bonham when he said, "When those members of parliament and those press boys bite into those peaches, and the juice runs down their chins and makes spots on their vests as big as the gravy spots on the vest of the famous Major Hoople, probably they will realize that the Niagara Peninsula grows the finest peaches in the world, bar no province or no country. Maybe this will awaken our parliament to the fact that we need markets for this kind of fruit and it is up to us to secure those markets for us."

I have lived in this Fruit Belt for nigh on 60 years and I never looked at, or tasted, finer peaches in my life and I feel that that is the sentiment today for every member that sits in the House. I am willing to gamble that that is the opinion of the Press Boys.

Mr. Cruickshank, is your face red?

EL RANCHO SIGN GOES TO COURT

A special non-jury sitting of the County Court began hearing Monday of action brought against an Ontario department of highways inspector by Miss Mildred Dixon, owner and proprietress of El Rancho Casablanca, a North Grimsby restaurant, for alleged trespassing on her property, damage to a large advertising sign, and loss of business through removal of the sign.

The plaintiff claims \$200 for loss of business, \$175.00 for the cost of the sign, and \$100.00 for trespassing of the highway officials on her property. S. H. Fleming, K.C., is appearing for the plaintiff, and counsel for the defense is H. F. Parkinson, K.C., of Toronto. Judge T. J. Darby is presiding.

Battle of the Sign

Miss Dixon was the first to appear in the witness box and told the lengthy story of the battle of the sign. She purchased the land and the building, which she converted into a restaurant. In May, 1948, and in June of that year bought the parcel of land nearest the Queen Elizabeth Way from W. O. Ulman. Miss Dixon explained that it was her intention to buy both parcels of land at the same time but that this was impossible for legal reasons.

The sign which advertises El Rancho Casablanca, is a single-poled one, 35 feet high by 8 feet wide, and standing three feet off the ground. It cost Miss Dixon \$75.00 she told the court.

After the sign had been up for two-and-a-half months, the plaintiff, an inspector of the Department of Highways, seeking permission to use the laneway east of her property as a second entrance to her business from the Queen Elizabeth Way. As a result, a department official visited her premises and it was during that visit that Miss Dixon said she was desirous of erecting a sign to advertise her business. He advised her to go to the department in Toronto for permission.

On August 15, Miss Dixon and her partner, Miss Ivy Stonehill, went to Toronto to interview the Department of Miscellaneous Purposes of the Department of Highways, but no person of authority was in the office at the time to give the required permission. Two days later, she said, an official of the Department visited her property on her request, and planned to erect the sign, but Dixon was absent so he came

back the following morning to see her and Miss Stonehill. That day, the plaintiff told the court, Mr. Wrightman informed them that the whole matter had been turned over to him by Mr. Fair, and the Department of Highways and that he was going to tear down the sign. Upon advice of her solicitor, Miss Dixon said she told Wrightman he was trespassing on her property and that if he damaged anything on it she would prosecute.

The highways inspector left the building and according to Miss Dixon's testimony, went out and sawed down the sign, leaving it lying in the field. Four days later, she said, a tow truck came and removed the damaged sign from the field, leaving it propped up against her building, where she said it was blown down by wind and broken in two.

According to the proprietress, 60 to 65% of her business comes from the east, and 25 to 30% of that number are Americans. She told the court that during the first two weeks after the sign was removed there was a noticeable drop in business.

Cross-examined by defense counsel, Miss Dixon said she had re-erected the sign after legal proceedings began, and said that it is still standing. She admitted erecting another sign facing west, and although she knew she did not have a permit to put it up.

Others appearing in the stand for the plaintiff were Reeve John Athens of North Grimsby; Miss Ivy Stonehill, former partner of Miss Dixon; Provincial Constable Thompson of the Grimsby detachment, and Wilfred Ulman, original owner of the property.

Miss Stonehill collaborated Miss Dixon's statements, but told de-

SPECIAL MEETING

Mayor Clarence W. Lewis has called a special meeting of town council for Tuesday night of next week to continue the discussion adjourned from the last regular meeting of council. This is an open meeting and the public are invited to attend.

PEACH LADEN TRUCKS LINED STREETS AT CANNING PLANT

DAYLIGHT TIME

Filled Yard At Livingston Avenue Factory And Streched All The Way To Main Street — Growers Air Their Grievs, Gripes And Beefs To Independent Reporter — Have Many Ideas.

Bright and early Monday morning a procession of trucks of various sizes and descriptions . . . one horse-drawn dray . . . all however loaded with the same produce — Elberta peaches, formed one of the longest, if not the longest line of vehicles ever to cart peaches to the Livingston Avenue Canning factory.

On the surface it would appear to be a very normal picture, fruit growers bringing their wares to the processing plant and receiving in return a fairly good price, but to delve into the situation further, to talk to the growers, brings forth quite a different story . . . a story full of woes and griefs . . . and beefs of the Niagara fruit industry. This is not written to find fault with the canning factories or the fruit shippers of the district, but it is written from what the grower thinks . . . and right at the bottom he is talking plenty and pulling no punches.

The average grower this summer has experienced one of the worst droughts in the history of the fruit belt. This some of them blame for the present low prices being paid for peaches and plums. While other lines of thought place the trouble on the retail trade being far from par, while still others hesitate in calling the shot, but all agreeing to some extent that the grower must in time have a voice strong enough to do a little dictating . . . rather than being dictated to by all and sundry.

BINBROOK FAIR HAD NEAR RECORD CROWDS

Exhibits Were The Finest And Largest In Many Years — Large Showing Of Farm Machinery.

The Binbrook Agricultural Fair had a record attendance this year, as visitors saw exhibits of horses, cattle, sheep, pigs and poultry.

Outstanding exhibits at the fair were G. E. Hildreth, Vinemount; A. Hone of Brantford; D. E. Connell, of Hamilton; W. J. Woon, Niagara Falls; D. E. Groat, Galt; George Bethune and Sons, Allen Smith and Son, W. A. Wingrove, Arthur Lowden and Son, W. Foster, Emerson Lowden, Keith Butcher, Hayes Woodley and J. M. Fletcher.

Herdsmen were exhibited by Ben Clark, while two herds of Aberdeen Angus were shown by Gordon Berry and Duncan Farms. W. J. D. Farmer and R. O. Biggs exhibited Ayrshire herds. Mr. Biggs won the Eaton Trophy for the best herd on parade.

Sheep exhibitors were: A. Shields and Sons, Russell Bell, Ralph Young, Cyrus Lowden and Wilson Douglass. Pigs were shown by H. Herd and C. A. Packham. Also outstanding on the program was an (Continued on Page 8)

DOING A FINE WORK

CHILDREN'S AID SOCIETY IS BADLY IN NEED OF MORE HELP

Emphasis was placed on the urgent need for more staff for the Children's Aid Society of St. Catharines and Lincoln County by superintendent Jack Finlay at the first Board of Directors' meeting of the season held at St. Catharines Tuesday afternoon.

In Mr. Finlay's September report it was pointed out that applications for service during June, July and August this year almost trebled those for the same period last year. Total applications for the past three months were 147 as compared with 51 for the same three months in 1948. The superintendent said his workers are carrying double the load they should carry to give the most efficient service.

He told the Board that two trained, experienced workers are required, but if trained people cannot be procured, they must have experienced workers at least. One of the two additional staff members he needed to take over foster home finding and unmarried parent work which are growing steadily and are an important part of Children's Aid work. The Board authorized Mr. Finlay to try to find one new staff member before the next Board

GRIMSBY, ONTARIO

By GORD McGREGOR

The O'Brien Deer Caper continues to highlight the Grimbsy scene this week as the hot buck threatens to demoralize the usually staid residential section of Livingston and Kerman Avenues. The bounding blighter careened the pink car of a lady packing peaches on Tuesday afternoon, this display of affection immediately bolstered the spirits of everyone concerned with the case.

"It definitely proves that the animal is not entirely a savage beast," stated the weary James.

Although most people are getting a kick from the entire caper, one gentleman of foreign extraction is not very happy about the searchers wending their way through his orchard of ragweed and sow thistle.

Waving his arms wildly he attempted to shoo the search party away, but was given a terrific jolt when told to "drop dead"—this was most annoying to the gent who just lacks a good sense of humor.

The animal has now become the ward of the government, but even the Liberals could hardly be expected to hog tie a deer, which is far different than shooting a bull, at which they oftentimes excel.

We understand now that two of Canada's foremost rope artists will arrive this weekend to attempt a capture. In conjunction with this a Deer Party is being held by the foot-sore James. Drew will be optional.

The Brewers Retail Store opened this morning with Guy Winters and the manager James Prentiss prepared to serve the wants of the public. Still not completed, the store is most attractive and spacious enough for a town considerably larger than Grimbsy. Judging from the size of the warehouse, it is not unlikely that this warehouse will service the needs of the district before long. This, of course, is merely supposition.

Perhaps you were among the thousands who lined up like sheep to view the Hope Diamond, the Star of the East, and the Dudley Necklace at the Exhibition. No doubt you will recall the uniformed men who may have been city police. Branks express men or special agents, but who acted more like Hitler's storm troopers as they alternately pushed, shoved and shoved the public around the display of cut glass.

Personally, we take a very dim view to having a cop treat you like a common criminal. Besides, what common jerk would be even remotely interested in the ice that brings bad luck to everyone that becomes the owner of it.

However, a more pleasant observation of the big show is the fact that Canadians are flush with dough—they may be if you take into consideration the way they were tossing it around the midway, which is absolutely the best place in Canada to relieve yourself of the green stuff. There are probably two reasons why the people wander around with their mouths open at the Ex: 1. They just tasted a typical hamburg and the rubbery effect was still reacting, or: 2. They had just realized how badly they were clipped for a nickel balloon that cost them a buck.

FALL FAIR DATES

Welland	Sept. 13-17
New Hamburg	Sept. 16-17
Tillsonburg	Sept. 19-21
Anacaster	Sept. 20, 21
Galt	Sept. 23-24

BREVITIES

EVENTS and TOPICS
of the WEEK in
TABLOID

County council meets next Tuesday.

Smithville Fair is Friday and Saturday of next week.

Property transfers for the month of August totalled \$2 for a consideration of \$467,988, and 19 family transactions for \$1.00 each, it was reported by the St. Catharines City Assessment office.

A man was hit by a car on No. 8 Highway at 10:15 on Saturday night, about one mile east of Beamsville. No further details of this mishap are available. Mr. and Mrs. Arthur Kelton, of Winona, Ontario, are reported to be in favourable condition at St. Catharines General Hospital. They were the victims of accident unknown.

BIRTHDAY PARTY

Mrs. Alfred Hill, 20 Clark St., kept open house last Friday, Sept. 8th, on the occasion of her 85th birthday. Friends from Hamilton, Toronto, Detroit, Fonthill and South Grimbsy, augmented by neighbours, spent the evening celebrating the happy event with songs and speeches.

The Independent takes great pleasure in extending congratulations to Mrs. Hill and wishing her Many Happy Returns.

ATTENTION, VETERANS!

The Service Bureau Office of the Canadian Legion, Mr. J. A. Warren will be at the Legion Club, 2 Depot Street, Grimbsy, on Wednesday, Sept. 21st, between the hours of 10 a.m. and 12 noon for the purpose of an interview with any veteran or their dependants who would like any assistance or advice with problems concerning war pensions, allowances, treatment or general welfare, are asked to write:

Service Officer,
Canadian Legion,
Grimbsy, Ontario,
who will be pleased to arrange an interview.

Monthly General Meeting, West Lincoln Branch, Canadian Legion, Wednesday, Sept. 21st, at 8 p.m. Legion Club, Depot St.

CAR IN FUNERAL
PROCESSION STRUCK

One car in the funeral cortege of the late Edward J. Calman, victim of a Quebec air crash last week, was struck Tuesday morning east of Beamsville as the procession was enroute to Granton where interment was to be made. The auto driven by Neuno Schleifer of Lintonwood, Ontario, came from the Bartlett sideroad and ran into a car driven by Thomas Calman.

Both cars were damaged but no person was injured. The occupants of the Calman car continued on to the cemetery in another vehicle.

At the time of the accident the funeral cortege was under the escort of Provincial Constable Doug Robbie. Prov. Constable Frank Conney investigated the accident and it is probable charges will be laid.

Complete results of the survey with a breakdown of all costs and returns, have been sent to all co-operating growers and Agricultural Representatives. Anyone wishing a copy can do so by writing the Farm Economics Branch, Ontario Department of Agriculture, Parliament Buildings, Toronto.

with the peach root aphid.

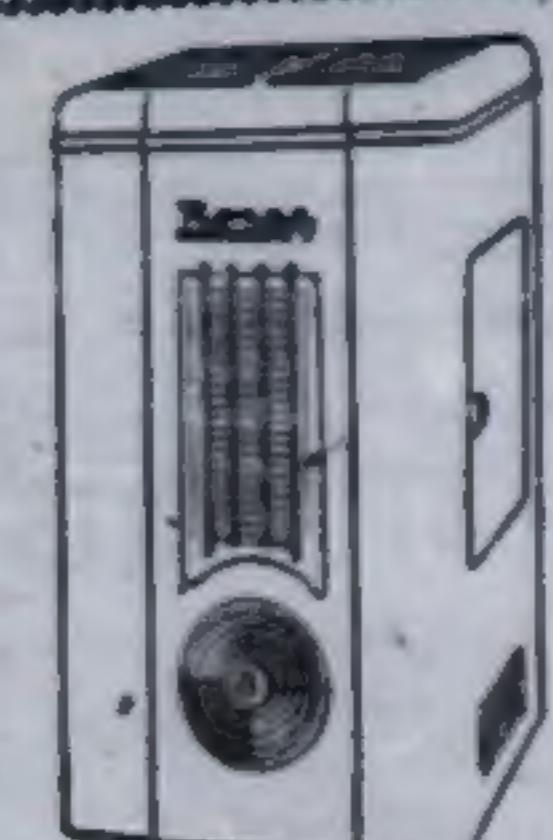

A few trees of each peach seedling rootstock were then examined and infection was found in each case.

An examination of the apricot seedlings was more promising. An occasional colony of mature aphids was noted on the roots, but the over-all infestation was almost negligible when compared with the peach seedlings.

This discovery was enough to encourage the horticulturists. They went ahead and budded apricot seedlings to the Valiant and Alberta peach varieties and next year expect that the trees will be ready for testing in old peach tree soil. Peach growers in the Niagara district, as well as in Southwestern Ontario, will be keenly interested in the final result of this experiment.

"COAT CARDS"

Playing cards bearing the pictures of kings, queens and knaves are not called court cards because they depict figures connected with a court of royalty. Court is a corruption of the word coat, their original name having been "coat cards" because the individuals wear coats.

MERRITTON SAID FAR FROM BEING BUSTED

At Present Time The Town Has No Money In The Bank But It Has A Lot Owing To It.

There has been considerable comment made on the report of the town clerk at the last meeting of Merritton council, when he said that the town "was broke." Mayor Skipper, in going into the statement in further detail states that the town is not "broke" "or any place near it." Mayor Skipper agreed that the clerk had been quoted correctly but the statement did not tell the whole story.

"We haven't any money in the bank, but we do know that substantial government grants will be received shortly. I don't doubt that there are innumerable other municipalities in the province in a similar position. We're no more 'broke' than a man who has no money in the bank, but knows that people owe him money, and will pay him soon," said Mayor Skipper.

"We set the budget early in the year. Despite the fact that we boosted our estimates for county rates by \$3,000 from last year, we

FRUIT WANTED

Lincoln Loyalist Chapter, I.O.D.E., is again arranging for its annual shipment of fruit from Grimsby orchards to Sunnybrook Hospital, Toronto.

Those contributing are asked to take their fruit to Mrs. E. A. Buckham, 152 Main St. W., or to Miss Olive Kitchen, No. 8 Highway, opposite Beach School, by Friday noon, Sept. 23rd.

Our boys always look forward to the arrival of this fruit, so we would request our members and friends to remember that it is THIS Friday for the annual fruit shipment.

SEVEN BISHOPS OF NIAGARA SINCE 1875

Right Reverend W. E. Bagnall Consecrated Yesterday, Is Youngest Bishop To Occupy The See Of Niagara.

The consecration yesterday of the Right Revd. W. E. Bagnall as a Bishop in the Church of God and his enthronement in his Cathedral Church as Bishop of Niagara recalls some interesting facts about his predecessors.

The Rt. Revd. Thomas Brock Fuller, consecrated May 1st, 1875, at the age of 65 was Bishop for nine years.

The Most Revd. Charles Hamilton, also consecrated on May 1st, was Bishop from 1885 when he was 51 until 1896 when he was translated to the See of Ottawa. He died in 1919.

The Rt. Revd. Philip DuMoulin was consecrated on June 24th, 1896, at the age of 62 and continued as Bishop of Niagara until his death in 1911.

The Rt. Revd. Wm. Reid Clark, consecrated June 24th, 1911, was also 62 and his episcopate lasted fourteen years.

The Most Revd. Trevor Owen became fifth Bishop of Niagara on his consecration on June 26th, 1925. He was then not quite 49. He was translated to Toronto in 1932.

The Rt. Revd. L. W. B. Broughall was consecrated on January 25th, 1933, and gave of his distinguished ability to the duties of his office for a longer period than any of the others—nearly 17 years.

The Seventh Bishop, whose episcopate began yesterday, at 45 becomes the youngest occupant of the See of Niagara.

The official signatures of the

V.O.N. SERVICE GROWING

VISITS DURING PAST THREE MONTHS SHOW BIG INCREASE

The months of June, July and August were very busy ones for the Lincoln County Branch of the Victoria Order, the nurse-in-charge Miss D. Small, reports.

The report for the three month period gives an inkling of the manner in which the work of the order is expanding.

The report reads:

In June we carried 179 patients, 66 being new patients, admitted during the month and 770 visits were made to these patients, 267 to mothers and babies which includes one home delivery, 83 to cancer patients, 187 to patients with long term illness, 106 to medical and surgical patients and 81 for Health Supervision. 17 visits were made to patients on return from hospital, 17 to D.V.A. patients and 16 to M.L.I. patients.

Fees collected include 206 paid visits, 126 part pay and one paid delivery, making \$366.00 D.V.A. cheque of \$35.00 and M.L.I. cheque of \$17.50, making a grand total of \$410.50. Miss Small was on vacation for the month and Mrs. McArthur supplied for her.

Fees collected were 248 full pay visits, 84 part pay, 1 paid delivery, making a total of \$406.00 D.V.A. cheque of \$32.75, making a grand total of \$439.75. Miss Small was on vacation for the month and Mrs. G. McArthur supplied for her.

In July we carried 214 patients,

91 being new patients admitted during the month and 770 visits were made to these patients, 267 to mothers and babies which includes one home delivery, 83 to cancer patients, 187 to patients with long term illness, 106 to medical and surgical patients and 81 for Health Supervision. 17 visits were made to patients on return from hospital and 24 to D.V.A. patients.

Fees collected include 248 full pay visits, 84 part pay, 1 paid delivery, making a total of \$406.00 D.V.A. cheque of \$32.75, making a grand total of \$439.75. Miss Small was on vacation for the month and Mrs. G. McArthur supplied for her.

HOUSE OF COMMONS AWAKENED

Grimsby Peaches

J. ORLON LIVINGSTON
Editor The Independent

There was great confusion in the House of Commons yesterday afternoon when the members gathered for the daily opening session for they were buried under a deluge of luscious Grimsby Peaches, so also was the gallery of the Fourth Estate.

It is safe to say that never in the history of any parliament in the world, or any Press Gallery, have the members ever gazed upon or eaten such lovely, juicy, flavorful fruit. And it was grown, packed and shipped from Grimsby.

Three years ago the daily newspapers of Ontario and Quebec saw fit to attack the red lene covering used by the growers of the Niagara Peninsula on their baskets that contained various types of fruit, particularly peaches and grapes. This newspaper got tangled up in that controversy as did N. J. M. "Mac" Lockhart, then Member of Parliament for Lincoln.

There also entered into the picture a member of parliament from the wild and rocky bush country of British Columbia, by the name of George Cruickshank. He saw fit to take advantage of the argument and boom B.C. peaches and apples, going so far as to present every member of the House with a box of B.C. peaches and apples. He has never let that campaign die. He probably will now.

It was my pleasure on Tuesday afternoon to stand in the packing house on the farm of Cecil M. Bonham and see 290 cartons of Grimsby grown peaches being packed for shipment to Ottawa for the members of the House of Commons. No finer fruit was ever grown on any farm in any country in the world. For size, color, flavor, juice and what have you, it could not be beaten anywhere. The packing was done by the two most expert women fruit packers in Ontario, Mrs. Wray Fisher and Mrs. Wally Philips, under the personal supervision of Mr. Bonham.

The 290 cases of 40's—28's—24's were shipped directly to Harry P. Cavers, M.P. for

Lincoln, in care of his office, in the Parliament Buildings, and from his office each case was taken by page boys and a case placed upon the desk of each member of the House. A special case was dispatched to Prime Minister St. Laurent. Also, 10 special cases, especially packed, were shipped to the members of the Press Gallery. As Mr. Bonham remarked "those Press boys do not make too much so we give them a little extra."

The brown cardboard cartons were printed in red and green inks with the following lettering "Ontario Grown Peaches—Packed For Those Who Appreciate Quality." This package, incidentally, is a standard package in this district.

This fruit was picked, packed and shipped by Mr. Bonham at the special request of the Niagara Peninsula Fruit Growers' Association of which he is a member of the executive committee.

I also stood on the fruit loading platform at the C.N.R. station and watched this fruit loaded in a special compartment of the Ottawa C.N.R. Express fruit car under the personal supervision of "Bill" Moore, C.N.R. Express supervisor of the fruit train.

Having sampled some of these luscious peaches I quite agreed with the doughty Mr. Bonham when he said, "When those members of parliament and those press boys bite into those peaches, and the juice runs down their chins and makes spots on their vests as big as the gravy spots on the vest of the famous Major Hoople, probably they will realize that the Niagara Peninsula grows the finest peaches in the world, bar no province or no country. Maybe this will awaken our parliament to the fact that we need markets for this kind of fruit and it is up to them to secure those markets for us."

I have lived in this Fruit Belt for nigh on 60 years and I never looked at, or tasted, finer peaches in my life and I feel that that is the sentiment today for every member that sits in the House. I am willing to gamble that that is the opinion of the Press Boys.

Mr. Cruickshank, is your face red?

PEACH LADED TRUCKS LINED STREETS AT CANNING PLANT

DAYLIGHT TIME

Filled Yard At Livingston Avenue Factory And Stretches All The Way To Main Street — Growers Air Their Grievances And Beefs To Independent Reporter — Have Many Ideas.

Bright and early Monday morning a procession of trucks of various sizes and descriptions . . . and one horse-drawn dray . . . all, however loaded with the same produce — Elberta peaches formed one of the longest, if not the longest line of vehicles ever to cart peaches to the Livingston Avenue Canning factory.

On the surface it would appear to be a very normal picture, fruit growers bringing their wares to the processing plant and receiving in return a fairly good price, but to delve into the situation further, to talk to the growers, brings forth quite a different story . . . a story full of woes and griefs . . . and beefs of the Niagara fruit industry.

This is not written to find fault with the canning factories or the fruit shippers of the district, but it is written from what the grower thinks . . . and right at this time he is talking plenty and pulling no punches.

The average grower this summer has experienced one of the worst droughts in the history of the fruit belt. This, some of them blame for the present low prices being paid for peaches and plums. While other lines of thought place the trouble on the retail trade being far from par, while still others hesitate in calling the shot, but all agreeing to some extent that the grower must in time have a voice strong enough to do a little dictating . . . rather than being dictated to by all and sundry.

BINBROOK FAIR HAD NEAR RECORD CROWDS

Exhibits Were The Finest And Largest In Many Years — Large Showing Of Farm Machinery.

The Binbrook Agricultural Fair had a record attendance this year, as visitors saw exhibits of horses, cattle sheep, pigs and poultry.

Outstanding exhibits at the fair were exhibited by Ben Clark, while two herds of Aberdeen Angus were shown by Gordon Berry and Duncan Farms. W. J. Purmer and R. O. Biggs exhibited Ayrshire herds. Mr. Biggs won the Eaton Trophy for the best herd on parade.

Sheep exhibitors were A. Shields and Sons, Russell Bell, Ralph Young, Cyrus Lowden and Wilson Douglas. Pigs were shown by H. Herd and C. A. Packham. Also outstanding on the program was an

(Continued on Page 8)

FRUIT THIEVES FINED

Two Coburg residents, James Laskey and William Goode, were convicted of stealing fruit from farmers in Louth and Clinton townships. Magistrate Hallett told the two men that they could "consider themselves lucky" that he had given them the alternative of a monetary fine instead of straight jail sentence.

Provincial constable Frank Conney explained that the men had taken the fruit at night, loaded it into a truck and sold it in Coburg. They were fined a total of \$33 each including costs on two charges, or 30 days in jail.

At the lawn bowling tournament held last Saturday in Burling, first prize went to Bert Webster, president of the Grimsby club. He won both games with the highest plus score.

DOING A FINE WORK

CHILDREN'S AID SOCIETY IS BADLY IN NEED OF MORE HELP

Emphasis was placed on the urgent need for more staff for the Children's Aid Society of St. Catharines and Lincoln County by superintendent Jack Finlay at the first Board of Directors' meeting of the season held at St. Catharines Tuesday afternoon.

In Mr. Finlay's September report it was pointed out that applications for service during June, July and August this year almost trebled those for the same period last year. Total applications for the past three months were 147 as compared with 51 for the same three months in 1948. The superintendent said his workers are carrying double the load they should carry to give the most efficient service.

He told the Board that two trained, experienced workers are required, but if trained people cannot be procured, they must have experienced workers at least. One of the two additional staff members is needed to take over family home finding and unmarried parent work which are growing steadily and are an important part of

SPECIAL MEETING

Mayor Clarence W. Lewis has called a special meeting of town council for Tuesday night of next week to continue the discussion adjourned from the last regular meeting of council. This is an open meeting and the public are invited to attend.

(Continued on Page 8)

Children's Aid work. The Board authorized Mr. Finlay to try to find one new staff member before the next Board meeting in October.

Special mention was made in the superintendent's report of the "splendid co-operation from the Kiwanis Club, the Kinettes, Zonta Club and other groups which enabled the Society to send five boys and seven girls to camp during the summer.

"For them all, it was truly an enriching experience not only from the standpoint of their physical health but their emotional growth and development as well," the report read.

At the end of August, 177 protection cases were open, and 251 children were in the care of the Children's Aid Society in this district. The break-down figures of children in the society's care at the end of last month are as follows: 104 children in boarding home care, 30 on adoption probation, four in wage homes, 30 in free homes, seven in other institutions, and two British child guests. Un- (Continued on Page 8)

FRANK FAIRBORN, JR.

True independence is never afraid of appearing dependent, and true dependence leads always to the most perfect independence.

WHEN CRAWFORDS REIGNED

Housewives no longer young, and other consumers who remember what a luscious fruit it was, must have indulged in a bit of gustatory nostalgia as they read in Tuesday's spectator that Crawford peaches were for sale on the Central Market that day.

The offering was a limited one, to be sure, and the few baskets sold swiftly. That brisk demand is not surprising, for of all native Canadian fruits none is more tempting and pleasing to the palate than the peaches of the Niagara Peninsula when they are at their best. And in the epicurean judgment of more than a few folk hereabouts, the Crawford is the daddy of them all when it comes to flavour and those other indefinable characteristics which make a Niagara peach such a poetic delight.

The Crawford used to be considered the finest-looking peach that was grown in these parts. Its shape was an almost perfect sparrow; its colouring, too, was romantic and it is said to have given rise to that sure-fire compliment, "a peaches-and-cream complexion," for forty and fifty years ago, there used to be cheeks on a few of the fair and young that vied with the breath-taking hues

of the Crawford. Hence came the saying: "She's a peach!"

Yes, Sir. The Crawford was quite an institution in its day. Its thick, dark-yellow flesh, its sweetness and the ease with which it could be freed from its pit made it a general favourite. But now, one learns with a twinge of sadness, it is seldom planted anymore. Very few trees of it remain in the orchards east of Hamilton.

New varieties have been introduced which are acclaimed as improvements on the Crawford, such as the V. group whose names begin with that letter, the Golden Jubilee, and others. Many older persons will find it hard to believe any other peach could surpass the Crawford, for to them it represented the ultimate.

The growers say otherwise, however, and they should know. Hence a mere consumer is almost compelled in the face of that expert opinion to concede the point—but with reservations and perhaps reluctantly, too. The Crawford was a mighty nice piece of nature's handiwork, say what you like.—Hamilton Spectator.

IMPRESSIVE STATISTICS

Figures which need no embellishment and which are surely impressive are issued on a comparative basis between 1939 and 1948 by the Independent Automobile and Casualty Insurance Company in folder form. They relate to Ontario alone:

24% More Drivers	899,572	1,206,536
28% More Vehicles	682,891	892,479
44% More U.S. Cars		
In Ontario	779,802	1,125,956
50% More Miles Traveled	5 Billion 7½ Billion Miles	

* Estimate based on gasoline consumption.

Accidents cost more because:

Repair bills up 100%; Car and truck prices up 75%; Hospital bills, etc. up 50%; Claims, settlements, overhead up 60%.

In 1939 in Ontario there were:

18,710 accidents, 652 deaths, 11,638 injuries, \$1,860,264 property damage (\$136 per accident).

In 1948 in Ontario there were: 27,407 accidents, 740 deaths, 14,970 injuries, \$7,140,281 property damage, (\$260 per accident).

"It might very well be you," is a situation which can be addressed to almost anyone contemplating a motor car trip. The toll in death and accident in 1948 was terrific. It is heavier by far for 1949 and in some regions, it is 50% greater than last year.

When a motorist hears of the clash and clang of trains, motor cars or trucks, it is reflected right on his insurance bill for his own protection. That is logical. The greater the sums the insurance companies have to pay out, the greater the sums they have to take in, if they are to remain solvent. The same applies to double indemnity life policies. The safe and sane driver of a car is thus taxed heavily for the accidents due to carelessness, stupidity and semi-criminality on the highways.

Ripeness is fulfillment," "the peak is past," is the lyric treatment given to the near approach of Autumn by the Weather Man in his New York Sunday Times column. He goes right to the countryside for his enlivening thought and inspiration:

"The owl has hooted in the evening darkness. The voice of autumn has echoed across the valley. There is no mistaking it now, for although the green world is still green, it has the gleam of dogwood berries turned scarlet and the shine of goldenrod in the fence corners and the glow of little white asters on the meadow. There is the cider smell of windfall apples in the orchard and the wine tang in the vineyard. You can close your eyes and know that the change is taking place."

"Ripeness is fulfillment, and it comes not at the peak of summer. It comes when the season begins to ease down the long hill toward winter and ice, when the days shorten and the stars of night begin to gleam in long-

er darkness. Ripeness is a summation, of long hot days and simmering sun and warm rain, and the flash of lightning across the summer sky. It is the beauty of bloom brought to the succulence of fruit. The soft green of new stems toughened to the firm fibre of the reaching twig, the winged seed of a maple now rooted at the grass roots and finding sustenance in the soil. Ripeness is September, warm at midnight, chill at dusk and covered with a cool dampness at dawn."

"The change is more than a matter of sunlight and day length, for there is a rhythm in all growing things, a rest and a resurgence. The season belongs to that rhythm, as do the day and night. But so does the apple and so do the goldenrod and the asters. The peak is past. The wave of the great rhythm now begins to ebb, and the cricket sings, the owl hoots, the crows call querulously. You can hear autumn from any hillside."

IN TERMS OF REFRIGERATORS

Like the motor car, the mechanical refrigerator has stepped out of the luxury into the necessity class. Forty-six million of them have been produced in Canada and the United States. There are twenty-nine million of them in operation today. A little figuring will show that provides for three out of every four families.

How did this come about? General Motors, in their sponsored broadcast "Your Land and Mine," suggest a reason and support it by figures. While the reason is common to the industry as a whole, the figures apply only to one manufacturer and so are only a fraction of a common total. Between the years 1921 and 1925 this one company spent \$20 million to develop a product, to provide necessary tools and the plant in which to use them. That was before they turned out the first finished product.

Happily, the public liked this new contrivance. The housewife was ready to pay \$725 for it and pay high installation and service costs as well. Of course the company got its money back or it wouldn't have stayed in business. It got it back with a moderate percentage of profit. Mainly it used these profits to see if it couldn't make a better, more trouble-free machine that could be sold at a lower cost. Between 1925 and 1949 it spent another hundred and ten million dollars to that end, and to the end also, of course, of maintaining its place in a competitive market. And the result? Further profits to the company? Well, maybe. They were businessmen not philanthropists. But against

that relatively small item of profit, think what a part it did for you and me. It made a better machine—more value for our dollar. Despite the fact that with almost every commodity we know the price was soaring, the unit price of mechanical refrigerators remained just about what it was in 1939. That was about a quarter what the housewife paid for her machine in 1925. So profits worked for all of us, and worked wholeheartedly.

But, there is another fact to remember. In 1921 the company had 275 persons employed in making those \$725 machines. By 1925 when business was moving they employed 1,200. Today the company, its profits invested in making cheaper and better machines for more people, now employs 20,000 men and women where once it employed 275.

Take that hope of profit away by unreasonable taxation or socialistic theories of working without an incentive and there wouldn't have been any better or cheaper refrigerators; there wouldn't have been employment for 20,000; there wouldn't have been a mechanical refrigerator in three out of every four homes. For profits are not only the price of progress. Profits also produce progress.

Famine, plague, war, and an unnumbered throng of guilt-avenging ill, to man be long.

Grief for a dead wife, and a troublesome guest, continues to the threshold, and there is at rest.

One of these Tuesday mornings there is going to be a telephone call and I'll expect a half page ad.

ALICE IN WONDERLAND MAKES TIMELY TOPIC AGAIN

(By Percy Ghent, in Toronto Telegram)

Eighty years ago a little girl with golden hair had her photograph taken at Ripon, Yorkshire. That picture of the eight-year-old child was a pleasing one, and the photographer displayed it in his studio window. Lewis Carroll, author of Alice in Wonderland, and Sir John Tenniel, the artist with whom Carroll happened to be discussing the type of illustrations he would like for the story, saw the photograph and Tenniel suggested that here was Alice, an ideal model, whose features and long golden hair would fit the part of the heroine perfectly. Author and artist visited the child's parents, Canon and Mrs. Badcock, their consent was given, and little Mary Badcock became the Alice of the classic tale, her features made familiar to countless readers through Tenniel's drawings. As Mary Probert, the model for the immortal Alice died in London on the 29th of March last, aged 88. She was not the Alice for whom Carroll wrote his fairy tale, of course. That was Alice Liddell, of Oxford, and that's another story.

A second announcement of recent date brings Carroll's juvenile fantasy into the spotlight again. For the first time in color, the story will be shown in the near future as a movie attraction. There's an international background for the film. While it is the creation of an American, Lou Bunin, it was made in France with an English cast. And the visualization will not be based on the Tenniel drawings, which Carroll, incidentally, never liked.

On the fourth of July, 1862, Charles Latwidge Dodgson, lecturer in mathematics at Oxford University, and better known by his pen-name, Lewis Carroll, took his young friends, the Liddell sisters, three of them, for an outing on the river to Godstow. He delighted them with an extravagant fairy tale of his own invention. Alice, one of the trio, was especially thrilled, for the heroine of the story was named for her. She coaxed the story teller to write it out for her so that she could laugh at the queer adventures over and over again.

Carroll obliged his enthusiastic admirer. He wrote it, not in commonplace writing, but in a neat, hand-printed script. This manuscript was enlivened, too, with 37 pictures; very odd and unusual pictures, drawn by himself. On Christmas Day that year Alice Liddell opened a package to find her beloved fairy tale with an elaborately decorated title-page—Alice's Adventures Under Ground. Another full page carried the inscription: "A Christmas gift to a dear child in memory of a summer day."

Elaborated later, this manuscript became the famous classic among children's stories, Alice in Wonderland. Now something of a rarity in itself, a facsimile of the original MS was published in 1886 and sold for the benefit of sick children in England. We happen to possess a copy. "There was no thought of publication in my mind when I wrote this story," says Carroll in his introduction to the hospital edition.

On the third of April, 1928, the original manuscript as presented to Alice Liddell, together with several letters written by Carroll, came up for sale at Sotheby's in London. Dr. A. S. W. Rosebach of Philadelphia and New York paid £15,400 for the small parcel, and carried it off under his arm—a trifling \$77,000 purchase. Cynics said the date of the sale should have been the first of April.

But Rosenbach, shrewd business man and book dealer as well as collector, was no fool. Within a year he had sold his treasure and made a profit of \$25,000. Eldridge Johnson, the man who had made a vast fortune out of gramophones with the trade-mark His Master's Voice, was the purchaser, and the \$102,000 he paid for those few sheets of paper was but a nibble at the gramophone millions.

At the time of the spectacular sale the British public waxed indignant. Much wonder was expressed that Mrs. Alice Hargreaves, the original Alice—would permit the precious manuscript to leave her native land. She was then well over 70 years old, and it was known that she was willing to sell it. There had, indeed, been none too hearty efforts to raise the £12,000 asked for it, so that it could be retained as a national treasure of literature. Eventually she entrusted the sale to Sotheby's. That simply meant that Rosenbach would buy it and carry it off to the United States no matter what the cost. But the closing years of "Alice" were made happy and carefree by the sale of the manuscript.

What are the factors that build up the fabulous prices paid on occasion, for literary rarities? Fame, sentiment, tender memories of childhood, romantic hero-worship—these are among them. In the instance just related, these nebulous and impractical qualities had a market value of \$100,000.

CONTINUATIONS

From Page One

PEACH LADEN TRUCKS

Is it a case of poor distribution? Three prominent growers say yes to this question. They tell of many of the smaller points in this very Province where it is almost impossible to buy fresh Niagara fruit. They also tell of what appear to be exorbitant prices being charged the consumer in some points, while the grower here receives a very low price. Citing an instance, a grower told of Burbank plums selling in Lindsay for 10¢ a pint box. Growers at that time were receiving thirty cents a six quart basket here . . . if they were wont to market their crop at such a level. On the subject of plums, it is impossible at this time to estimate how many thousands of tons of plums have been left on the trees to fall with the autumn winds and the first frost.

The same is true of the bumper Elberta peach crop. It has been of gigantic proportions, exceeding in many cases the estimates of growers who contracted for ten tons, only to find that they have twelve or thirteen tons. When their contracts are filled they have no market except to ship by the basket. The basket price has now gone down to the level where many growers cannot ship their fruit and hope to make even a small margin.

Many tons of peaches will rot on the fertile soil of the Peninsula in this strange year of 1949.

As the growers stood by the their trucks, gathering in small groups to while away the hours of waiting, not knowing whether or not the gates would suddenly exclude them from emptying their trucks, they spoke of many phases of fruit growing as it now stands in his bountiful acreage between the two lakes.

A lady told of her greatest gripe, this being the extremely high cost of baskets. Now set at over \$70.00 a thousand, it costs the grower in the vicinity of eleven cents to pack his fruit in a container complete with lens or flat top.

"I don't mind paying hired help sixty or seventy cents an hour to pick the fruit, but it just makes me sick to pay the terrific price being asked for baskets."

After talking with more than fifteen of these hard working men, who were sitting around waiting, while a stiff breeze whistled more peaches and pears to the ground, it became confusing to ascertain just what they do expect. It did seem that the grower is in dire need of a voice stronger than the present Board, who seem interested only to the point of getting a price set and then forgetting the unfortunate farmer.

It is common knowledge that a fruit grower is never happy. He is constantly complaining about the lack of rain or the fact that we are getting too much. About the added costs of operating and the decreased prices for the produce marketed. But not all their gripes are without just cause. Indeed, a man would be strange if he did not bitterly condemn the fact that he must return to his barn and dump six tons of peaches stored therein over the lake bank Why? Because his contract is full and there is no market. Of the men we talked to, eight of them stated that they would be forced to dump large quantities of peaches for lack of a distribution point.

"Has this been an average year we asked?" "It has been the worst year I have ever experienced," was the opinion of five growers with large acreages.

"Have you any particular viewpoint for a solution to the situation?"

"No nothing concrete."

"Will the growers ever band together and be strong enough to gain sufficient for their produce?" we asked.

"For this question we received no answer."

"May I have a peach?"

"You can have a box if you want one."

SEVEN BISHOPS

Seven Bishops have been: "T. B. Niagara" (Fuller); "Charles Niagara" (Hamilton); "J. Philip Niagara" (Dumoulin); "William Niagara" (Clark); "Derwyn Niagara" (Owen); "Wilmer Niagara" (Broughall), and now "Walter Niagara" (Bagnall).

A Bishop is a chief pastor with oversight of a more or less large area comprising all the parishes contained therein, and stands in a unique position of intimacy with each and thus brings to the spiritual welfare of the people who make up his flock a contribution not to be had in any other way. He is known to all and usually loved by all; he is listened to with a peculiar respect, he is available to all, both clergy and laity, for consultation and help, he comes into personal knowledge of and touch with every member of the Church in his Diocese at his confirmation—the Bishop admits each one personally as a communicant of the Church. He is the spear-head of leadership in the Diocese, and is also looked to as a member of the Episcopate of the whole Church in which he is a guardian of its doctrine, faith and practices, whose concern is the faithful preaching of the Gospel, the enlargement and extension of Christ's Kingdom and the up-building of His Church.

Bishop Bagnall's consecration day—Sept. 21st, is St. Matthew's Day in the Church Calendar. The requirement is that this act is always to be performed on some Sunday or Holy-day. The special scriptures appointed to be read on any such day are potent with meaning for such an event.

INVESTIGATION CAUSE OF WATER POLLUTION

The technical staff of the International Joint Commission will conduct a surface float study in connection with the pollution investigation of the International boundary waters by the United States and Canada, to begin September 26, 1949. In the conduct of this study the Commission's technical staff requests the aid of sportmen, fishermen, boaters, and other users of these waters.

Hundreds of small boats are to be released in Lake Erie at various points from Point Abino, Ontario, to Lake View, New York on the U.S. shore. By means of these boats it is intended to show the path of surface pollution in the waters flowing from Lake Erie through the Niagara River into Lake Ontario. The boats are of wood, $\frac{1}{2}'' \times 2\frac{1}{2}''$ in dimension, painted a bright orange color. Each boat will carry a serial number and the following printed message:

Please forward to U.S. Public Health Service, P. O. Box 474, Niagara Falls, New York, the serial number of this boat, the date, hour, and accurate description of place at which found, and your name and address. Replace the float in the water.

The information requested is to be forwarded to the U.S. Public Health Service. It is important to report by letter or postal card the serial number of the float and the date and accurate description of the location at which it was found. Details as to location are to include the shore and identifying landmarks (for example, Black Rock Canal at International Bridge).

The float is to be replaced at once in the water where found and allowed to continue down stream for further observations.

The success of this study will depend, in a large part, on the cooperation and contribution of information from sportmen and other groups indicated above.

The Romans used shorthand as early as 63 B.C.

Ocean waters contain billions of tons of gold.

"BILL AND COO"
EVER HEAR OF 'EM

Comedian Ken Murray is to be congratulated as the producer of "Bill and Coo," playing at the Roxy on Friday, September 23rd. It is undoubtedly the most unique picture ever filmed. It is a true-to-life tale of happenings in a community of birds. All the roles, from that of the hero, the villain and the heart interest, through the large cast to the 'bits' are capably enacted by small, feathered birds. No fakes or strings were necessary to achieve dramatic sequences in the film. Every one of the actors and actresses were carefully and patiently trained by George Burton until they were accomplished enough to handle their parts as skillfully as any two-footed player. The plot is as detailed as any concocted for human thespians. It concerns the hectic trials and tribulations of Bill, a lovesick love bird and Coo, the dainty and pretty object of his affections. The bane of their lives is the sinister and malevolent Black Menace, an egotistical crow who calls a halt at nothing to gain his point. Bill valiantly battles his big adversary's schemes which culminate in a stirring climax on the day of the annual circus. There is a stirring finale which settles the issues once and for all between the crow and Bill.

Although not always successful, dreams are devices for allaying disturbances which would interfere with sleep.

Serving Canadians
in Town and Country

It's an old saying that if you build a better mousetrap, the world will beat a pathway to your door . . . but it's only partly true. Unless somebody takes it out and shows it to the people who need mouse traps most of them will never hear about it.

It's the same with farm implements. Even though Massey-Harris has been building better and better farm machines for more than 100 years, thousands of Canadian farmers would still be doing their work the hard way if it weren't for the service of Massey-Harris dealers.

Since the earliest days, the dealer (or "agent" as he was once called) has performed a triple service. He has served his farm customers by

selling them machines that enable them to increase their yearly earnings. He has served of Massey-Harris by enlarging the distribution of Massey-Harris products. And equally, he has served his community, because increased farm earnings result in better business for all merchants, and in better homes, better schools, better churches and hospitals.

The Massey-Harris dealer of today is as modern in his methods as any merchant in town. You find him in an up-to-date building on "Main Street" with a showroom to display his streamlined machines and every facility to serve the needs of mechanized farming. He is one of the key businessmen of the community.

HOMESPUN SUIT WITHOUT BULK

By PRUNELLA WOOD

The fashion season is running over at the "rim with tweeds and homespuns, remarkable this year for their slim, unbulky look. True, many a weave is lighter than those familiar British stuffs which last through generations of English novels, but what is even more reassuring, new cuts and silhouettes are also slim making, at least with our designers.

Here we have a coat and skirt of slim effect, the former rather like a weskit with sleeves, its edges, chevron shaped pockets, collar and cuffs, quadruple-stitched to give a firm edge to the fabric softness. The kickpleat in the skirt is a single flat fold . . . another non-bulk device . . . and the tweed itself is a mixture of deep violet, brown and golden flecks.—Adler & Adler.

INITIATION PRANKS AT THE HIGH SCHOOL

Sixty-eight freshmen were given the works last Friday at the local high school, as the seniors got together to ascertain the best methods of scaring the you-know-what out of the young students just beginning their high school careers. Personally we think the seniors failed miserably as a very hilarious group of freshmen seemed to enjoy everything their superiors could dream up . . . and still came back for more.

All day the boys paraded around with pants rolled to the knee, and wearing pyjama tops with kerchief and necktie to round out the ensemble. They also carried the necessary equipment needed to give shoe shines to the haughty second formers, which is probably the only time they will have a shine on their brogues all year. The girls ah, yes. They wore slacks reversed and inside out, and also snarled up their locks with clothes pins of the spring variety. Both boys and girls were compelled to hold one arm on high when wandering through the hallowed halls of the institute of higher learning.

Prior to an initiation dance held in the evening, the real fun began, with freshmen attempting to sit on a gallon jug with feet off the floor and whistling Dixie in three flats while munching a cracker—and just for the heck of it, trying to light a candle. This was very humorous.

Another innocent little trick had the freshies walking in their bare feet on a wet sodden mass or mess of old blankets. This was gaily done by the grade niners who wondered when the fun was going to start, and the grizzly old seniors in charge of the effort wished it was all over as they were running out of ideas—but fast.

Perhaps the hero of the evening was Mighty Mike, a first former fifteen years of age and who has to look up to see the end of a yard stick. Mighty Mike is going to be a real mascot for G.H.S. and at the risk of having men send us threatening letters we'll relate that the girls all think that he is very cute.

Initiation is made of fun, and is always a pack of fun for everyone—but now that it is all over those Grade nine kids are plenty initiated and will soon keep the old school spirit burning. Back to your desks, children. Parlez vous the ding-dong.

"Gospel" means good news.

ATTENTION!

After Saturday, September 24th, Dr. Christie's residence and office will be separate until about October 1st.

If no answer at 166 (office), call 168-W (residence).

RECEPTION TENDERED MISS CANADA OF 1949

She came. She smiled. She talked. Who?

Margaret Lynn Munn, Miss Canada of 1949.

The vivacious young song bird paid her first visit to Grimsby since her selection as Miss Canada and since her triumph in the talent division of the Miss America pageant in Atlantic City on Saturday evening and was tendered a grand reception at The Village Inn by Mr. Gordon Hannah, proprietor of The Inn.

Miss Munn was sponsored in the Miss Canada contest by Peggy O'Neill and Peggy is her chaperone on all her tours during the next twelve months.

Over 100 guests attended the reception including such dignitaries as Judge Richard Colter, K.C., Toronto; Harry P. Cavers, M.P. for Lincoln; Mayor Richard Robertson, of St. Catharines; Mayor Clarence W. Lewis of Grimsby, and other municipal officials and their ladies. It was a gala evening.

Stew. Kenney of radio station CKET, Toronto, acted as M.C. for the evening and the fine programme of short speeches was carried out in admirable fashion. One of The Inn's famous dinners was discussed and everybody was happy.

Miss Canada is a tall, slim blonde with a pleasing personality and a lovely talking voice, but it is her singing voice that captivates her audience. She sings like a bird and has a wonderful range on the music scale. She is really a Miss Canada, and it is to be hoped that more Grimsby and district people will have the pleasure of meeting her and listening to her remarkable voice before her reign as Miss Canada is over.

Upon her arrival from Toronto, by motor, Miss Canada was welcomed by Mayor Lewis and Mrs. Isabel Livingston, a 64-year resident of Grimsby. She was presented with a Golden Key to Grimsby and a bouquet of red rose buds.

The Pack has been divided into two groups for greater ease in instruction. The Sixers for A Pack are Jack Baisley, W. A. Cornwell, Jack Fisher and Graeme McIntosh. This group was taken outside for instruction in pitching a tent while Baloo kept B Pack busily engaged in the gymnasium. Following a talk on First Star Health this pack played a game of Whack-the-Germs down the sink. Mowgli looked after the Bones during the preparations for a Knot tying relay which was won by the White Six. By this time A Pack had the tent ready and both groups met in it for a sing-song and story by Akela.

ON THE BOARDWALK IN ATLANTIC CITY**HOMEMAKER'S CORNER**

by Evelyn Budge

Now that we are in the midst of the grape season, I feel that it would be fitting to give you some grape recipes. I wonder if any of you have tried Betty Crocker's recipe for Grape Sponge Pie? It is grand. Here is the recipe:

Grape Sponge Pie

Filling.—4 cups Concord grapes, 1 cup sugar, 2 thsp. flour, 1 tsp. lemon juice. Method.—Remove skin from grapes and put pulp in a saucepan without water. Bring to a boil. While still hot, put through strainer to remove seeds. Combine strained pulp with the skins. Mix sugar and flour together and stir into grapes. Add lemon juice. Pour into pie pan lined with pastry and bake without a top crust for twenty minutes. Remove from oven. Cover with special Sponge Cake batter and return to oven to finish baking about 20 minutes. Serve while still warm. Temperature 400 degrees for first ten minutes, decreasing to 250 degrees F. moderate oven to finish baking. Amount, one 8 inch pie.

Special Sponge Batter for The Grape Pie

2 eggs, ½ cup sugar, 1 ½ tbsp. milk, ½ cup flour, 1 tsp. baking powder.

Method.—Beat eggs well and add sugar and milk. Sift flour once before measuring. Sift flour and baking powder together and add to egg mixture. Pour over partially baked pie and return to oven immediately to finish baking.

Many of you homemakers in this district will have fond memories of the late Nurse Flegg who was County school nurse for many years. I well remember that in the midst of her busy duties she would always make several batches of Grape Jelly to distribute among the sick and shut-ins when she made her usual rounds. Would you like her recipe? Here it is.—

Nurse Flegg's Grape Jelly

1 six quart basket of blue grapes. Wash and remove from stems. Put in kettle with 1 pint of cold water. Boil till tender and strain through a jelly bag. Measure the juice. Put on fire and boil hard for four minutes. For each cup of juice add 1 cup of granulated sugar, and remove from fire at once. Stir continuously for 25 minutes. Pour into jelly glasses.

Perhaps you would like a recipe for—

Grape Catsup

4 lbs. grapes, ½ pint cider vinegar, 1 tsp. cloves, 1 tsp. salt, 1½ lbs. sugar, 2 cups ground cinnamon, 1 tsp. ground allspice.

Wash and stems grapes. Place in saucepan with vinegar, and cook for 15 minutes. Rub through sieve fine enough to retain the seeds. Boil pulp until thick. Add other ingredients and boil half an hour longer. Fill into hot sterilized jars or bottles and seal.

Spiced Grapes

6 lbs. of well-flavoured grapes, 1 ½ pints white wine vinegar, ¼

tsp. pepper, 1 tsp. mace, 1 tsp. ground cinnamon, 8 whole cloves, 1 tsp. ground nutmeg, ¼ tsp. table salt.

Remove seeds and prepare grapes as for jam. Mix all other ingredients together, bring to the boil. Add grapes. Simmer very gently for two hours. Seal in sterilized jars.

Grape Marmalade

Wash the grapes. Remove from stems and press the pulp from the skins. Cook the pulp ten minutes and put it through a sieve to remove seeds. Add skins to the pulp and measure the mixture. To 1 cup of pulp, allow two-thirds cup of sugar. Cook about twenty minutes or until skins are tender and seal at once in sterilized jars.

Grape and Apple Butter

2 cups grape pulp, 2 cups sugar, 2 cups apple pulp. Prepare fruit pulp by cooking fruit with a little water to prevent burning and passing it through a coarse sieve. Combine the ingredients and cook 20 minutes. Seal at once in sterile jars.

Fingerprints have been altered, to a considerable degree, by surgery, leprosy, scleroderma, radiodermatitis and occupational eczema. In fact, there have been cases in which leprosy has completely changed the patterns of the fingers that their impressions could not be used for purposes of identification.

ANNUAL MEETING OF THE PLAYERS' GUILD

The annual meeting of the Grimsby Players' Guild was held on Tuesday evening in the Parish Hall with a good attendance.

The executive for the 1949-50 season was elected as follows:

Pres.—Rev. E. A. Brooks.

Past Pres.—O. N. Patterson.

Vice-Pres.—Walter H. Morris.

Record Sec.—Mrs. E. T. Rogers.

Corres. Sec.—Miss S. Heathcote.

Treas.—Miss E. R. Cullingford.

Dir. of Production—Col. G. R. Chetwynd.

Stage Man.—Dr. D. R. Copeland.

Bus. Manager—A. E. Mack.

It was decided that in future the annual election would take place the latter part of April of each year, and that the Executive would hold office from May 1st to April 30th of the following year.

The retiring President, Owen Patterson thanked the members for their support and enthusiasm shown during his term of office and also commented on the growth of the Guild since its inception.

The Treasurer's report showed a balance on hand of \$46.55.

The report of the Play Reading Committee as presented by Mrs. Robt. Gibson was accepted.

The Guild will give three presentations during the coming season, the first one being "The Late Christopher Bean" which will also be the entry in the Western Ontario Drama League. The second presentation will be three one-act plays—a drama, a comedy and a farce, with a three-act comedy for the final presentation.

STRANGE CUSTOM

The Nairs, a caste of Indians on the Malabar Coast of India, are the only people who practice non-fraternal polyandry. This custom originated among the centuries ago, when their men were warriors and were forbidden to marry. Each girl is first "married" to a stranger who, after the ceremony, is paid and dismissed. From then, she is permitted and usually嫁给 four to a dozen husbands at a time, and they are rarely related to another. Following a schedule of visits arranged among themselves, the men successively spend three days with their common wife; and each keeps her supplied with a certain necessity such as rice and clothes. Children become the property of the mother and the heirs of her brother or nearest male relative.

AUTO VENTILATION

Increased ventilation throughout lower part of automobile may be obtained by use of small fins attached to front windows of the car reports The Financial Post. Fins will fit on most makes of cars according to Connecticut maker.

"never used such fine fuel..."

SPORTS**SILVER MILLS TEAM
FINISH UP SEASON**

As far as can be ascertained the Silver Mills girl's softball team is ready to throw in the towel and forget about any further activities with Community Beach, who must now be declared champs of the West Lincoln Girl's Softball League. Following the third game, officials of the Silver Mills declared that they would protest on the grounds that a couple of players were imported, while the league president declared that seven full innings had not been played, therefore the game was null and void and would have to be replayed.

Monday, Bill Fisher, manager of the Mills stated that in all likelihood nothing further would be done to wrangle the shallow crown away from the Beach squad.

Of more interest was the news that the Mills managed to survive the season with a bank balance of \$82.30, even after \$25.00 prize money had been won by Elsie Treischuk and Peg Dodd, winners of the draw held at the Roxy last week. This amount should give the girls a good start next season if they do not choose to blow it all on a party . . . or don't the girls team go in for that. Ah well, it was a lot of fun, anyway.

**HORSE SHOW WINNERS
AT BEAMSVILLE FAIR**

One of the features of the 92nd Annual Beamsville Fair, held recently, was the large showing of cattle and horses, and considerable interest was shown by the record crowd as the judges awarded ribbons to the prime stock shown by cattle breeders and horse fanciers from a wide area. The following is a complete list of winners in both classes.

HORSES

General Purpose
Team and Single—First, Sunshine Dairy, St. Catharines.

Colt, 2 years—First, Lee Staff, Jordan Station.

Colt, 1 year—First, G. D. Morden, Oakville.

Roadsters

Team and 2 singles—First, W. J. Wood, Niagara Falls.

Team—3 second—S. Somerville, Waldmar.

Team—3 thirds—S. Somerville, Waldmar.

Team—1 third—Irwin Mewhinney, Vineland.

Team—2 thirds—Irwin Mewhinney, Vineland.

Brood Mare—First, C. B. Sterling, Hamilton.

Colt, 3 years—First, Irwin Mewhinney, Vineland.

Colt, 2 years—Second, C. Stevens, Thorold.

Colt, 2 years—First, G. J. Barron, Brantford.

Colt, 1 year—First, G. J. Barron of Brantford.

Colt, 1 year—Second, Sam Hill, Beamsville.

Foal—First, C. B. Sterling.

Braught

Team—First, G. E. Hildreth, Vinemount; Second, O'Keefe's Brewery, Toronto; Third, G. D. Morden.

Single—First, G. E. Hildreth; 2nd, C. M. Ferris, Brantford; 3rd, G. D. Morden.

Brood Mare—1st, Miss S. Cochener, Waterdown.

Foal—1st, Miss S. Cochener, Waterdown.

Single

Single Wagon—1st, G. D. Morden; 2nd, Sunshine Dairy; 3rd, Sunshine Dairy.

Hackney

Team—1st, Wm. E. Newman, St. Catharines.

Single—1st, Wm. E. Newman, St. Catharines; 2nd, Wm. Tilligan, St. Catharines.

Specials

Best Team with vehicle—Sunshine Dairy.

Best Single with vehicle—Wm. Tilligan.

Best Colt on grounds—Miss S. Cochener.

Best Lady Driver—Wm. Tilligan.

Single Roadster Race—1st, Ind. 3rd—S. Somerville.

Double Roadster Race—1st, Ind. 3rd, S. Somerville.

Gold Mare or Gelding—1st, Miss S. Cochener; 2nd, C. M. Ferris; 3rd, T. D. Morden.

Pony Special—1st, Fred Holloway, Cawdor Centre; 2nd, Fred Holloway; 3rd, Donald Hall, Bartonville.

CATTLE

Guernsey

3 First, 1 Second, 2 First—Emerson Lowden, Glenford Station.

1 First, 1 Second—Cyrus Lowden, Smithville.

1 Second—Wm. Combe, St. Catharines.

Jersey

3 First, 4 Seconds—J. Manson Fletcher, Stoney Creek.

5 First, 3 Seconds—H. Butcher & Son, St. George.

2 Third—Chester Lane, St. Ann's, Ayrshire

10 First, 2 Seconds—Walter

**Do You
Know...**

how far
birds fly to
migrate?

Every year, at certain times, millions of birds in every part of the world suddenly take wing and fly varying distances to foreign climes. No one yet has been able to satisfactorily determine the prime impulse of these migrations and to fathom the great mystery of its accomplishment.

Do You Know . . . that the Arctic Tern nests within the Arctic Circle and then flies over more than 10,000 miles of ocean to winter on the islands of the Antarctic . . . that the Grey Plover breeds in the Arctic Circle and winters in equatorial countries . . . that swallows ringed in Great Britain have been traced to South Africa, more than 6,000 miles away!

Do You Know . . . that migrants usually fly at under 3,000 feet? . . . that the average distance flown in a day is 200 miles, even though the full flight may be thousands of miles? . . . that many species manage to cross these enormous distances without a break? . . . that even young birds, making the trip for the first time, make the flight unerringly, without guidance from the older birds?

Do You Know any interesting and unusual facts? Our "Advisory Panel" will pay \$25 for any authenticated readers' submissions if they are usable. All letters become our property. Write Black Horse Brewery, Station L, Montreal, P.Q.

**SUN LIFE
OF CANADA**
GEORGE I. GEDDES
SUN LIFE BUILDING

Hamilton, Ont. Phone: Bus. 7-3618; Res. 7-5518

IN THE PAST four years we added more than half a million telephones and installed new equipment in every exchange in Ontario and Quebec. At the same time we were able to make substantial improvements in service. But it took a lot of money, over two hundred million dollars!

There remains much to be done! Many applicants are still waiting for telephone service, and many more subscribers' present service is not adequate to their needs. We intend to meet their wishes, and to continue making the service clearer, faster, better in every way.

This will take more millions for new equipment and buildings. As in the past, this money must come from the savings of thousands of Canadians who are willing to invest in the telephone business.

THE BELL TELEPHONE COMPANY OF CANADA

CONTINUATIONS

From Page One

MERRITTON
found when the county rates were struck we had to pay \$7,000 more than last year. In a court of revision, we lost \$4,000 in a readjustment of assessment on the Interlake Tissue Mills and other industrial property."

"The treasurer was simply reminding council that through these two losses we had incurred a deficit of \$8,000 already, and we would have to watch our work carefully for the rest of the year. Even if we ended the year with a deficit, it would not be poor budgeting on a tax roll of \$185,000."

Mayor Skipper said the town expected to receive shortly government grants totaling \$19,100 for roads, municipal subsidy for police and fire departments, and payment in lieu of wartime housing taxation.

At the moment, the town is broke in the sense that it has no ready money in the bank.

BINBROOK FAIR
exhibit of farm machinery. A boys and girls' calf club was sponsored by the East End Kiwanis Club.

Class A horses and owners—Summary, John and Jerome Dobbin, 3-1-1; Lady Harm, Joe Gowlin, 1-1-2; Ponny Boy, G. Larkin, 2-3-3; J. Lee, H. Smith, 4-4-4; Class B, Tony Direct, N. Whaley, 1-1-1; Smokey Harvester, A. Gort, 2-2-2; Pine Ridge, C. Gowlin, 2-2-4; Eddie B. Graton, Sam Curly, 4-4-2;

William Harris, of Binbrook, had a display of feed mixing, showing the method of concentrated food for stock and poultry.

The Robinson baby show, one of the big attractions of the fair, ended with ribbons being taken by:

Boys over six months Carl Fletcher, R. R. No. 1, Glaston; girls six months Lynda Topp, R. R. 2, Hammon; boys six months, John Jerome, R. R. No. 4, Glaston; girls under three months Beverly Falser, R. R. No. 1, Stony Creek; boys under three months, Wayne Gibson, R. R. No. 4, Glaston; twins Lynda and Lyle Bremse, R.R. No. 1 York.

The president, A. E. Laidman, and R. H. Laidman, secretary-treasurer, expressed their thanks to the directors and everyone contributing to the fair's success.

GRIMSBY HIGH SCHOOL
Robert C. Calhoun of Toronto, and a graduate of the University of Toronto in 1947. A teacher of Latin in four grades, he also teaches history to grades 11 and 12 and art in Grade 9.

A valued member of the faculty at Grimsby High is Gordon L. Eaton, a member of the staff since 1933, and during this time he has cultivated many young voices, blending them into choirs of extremely high calibre. Grade 9 students reap the benefits of Mr. Eaton's vast knowledge of music, while the entire school gains immensely through his efforts.

Another valuable member of the staff is Miss Erma Glave, an extremely capable teacher of French and English. Miss Glave is a graduate of Queen's University and was appointed to Grimsby High School in 1941. All grades gain their knowledge of the French language from her, and she also teaches English in grade 12. Miss Glave is also active with the Drama group.

A newcomer to the school this fall, a last minute appointment so to speak is Miss Lois Greening of London, Ontario. A graduate of Western in 1944, Miss Greening is the teacher of History and English to the first year students, and she also is in complete charge of all athletics for the girls. Miss Greening has earned considerable recognition as a singer in her home town and at Western.

One of the busiest instructors at the school is Mrs. Johnston of St. George. Form teacher for Grade 13, she teaches English to Grades 10, 11 and 12 and history to Grade 12. Mrs. Johnston is extremely active in extra curricular work and works with Miss Glave on the Drama Club, besides being in charge of the History Club and the school magazine *Studenten*.

For those students requiring the knowledge to carry them into business careers, G.H.L.S. has as a teacher of commercial subjects a man well qualified for the job in Alfred Piper. Mr. Piper lists Toronto as his home town, and graduated from U. of T. and the College of Education before being appointed to Grimsby in 1947. Form teacher in 10B he teaches commercial subjects throughout the school as well as Grade 9 French. Mr. Piper is keenly interested in library work, and resurrected the library at the school, and has been instrumental in making it a haven for students wishing to do a little research via the ample supply of books listed herein.

Grade 9A have as their form teacher Frank Pautka, a geography and mathematics teacher in Grade 9, and also a teacher of Geography in Grade 10. He also has the important task of giving proper physical training to the boys of the school, and is kept busy after hours getting football and basket-

ball teams in shape for C.O.C.K.A. schedules coming up this autumn and winter. Mr. Pautka hails from Kitchener and comes by his athletic prowess quite justly, with other members of his family holding the sporting spotlight in baseball and hockey. Frank was the Recreational Director this summer here in Grimsby.

Form teacher in Grade 9B is Nick Saunders, a graduate of the University of Toronto, and also of the Ontario Agricultural College at Guelph. He teaches Practical Agriculture and Agricultural Science to Grades 9, 10 and 11. Mr. Saunders managed to get four and a half years service with the army overseas before coming to a teaching position at Grimsby.

Last but not least is Howard

Vaughan, another newcomer to Grimsby, and listings his home town the eastern town of Orillia. A veteran of the R.C.A.F., he is a graduate of McMaster University, a specialist in math which he teaches to Grades 10 to 13 inclusive.

That rounds out the list! Sketches on the men and women now settling down to another school year with a new crop of students trying hard to adjust themselves to the fact that holidays are over and the back to school movement has now begun in earnest.

CHILDREN'S AID
marked parent cases totalled 26 at the end of August, and there were four family allowance investigations still open at that time.

A scholarship to honor the memory of the late Mrs. Frances Henderson, executive secretary of the Association of Children's Aid Societies of the Province of Ontario, is being established by the association. Each of the 52 societies in the province is being asked to contribute to the Mrs. Frances Henderson fund for providing a scholarship to be awarded to an outstanding student enrolled in the second year of study at the School of Social Science, as a candidate for the degree of social work. The student must also specialize in child welfare and take a position in Ontario. The association is asking for a minimum of \$1,000 to found the scholarship. The local contributions will be \$500, spread over five years.

Authority to apply for a second Commissioner's Certificate for the local Society office was given the superintendent at Tuesday's meeting. It was stated that the certificate, which gives a person power to take affidavits must be held by a social worker and not a member of the office staff as originally suggested. Mr. Finlay is the only person at this branch holding the certificate at present, and he points out that affidavits are taken every day in his office which makes it difficult when he cannot be there to take them.

Representatives of the Board of Directors and four field staff members of the local Society are planning to attend the Regional Conference of the Association of Children's Aid Societies for Ontario, scheduled for Sept. 30th at Fern Cottage on Lake Couchiching.

V.O. NURSES
great deal to our work, but gives a great deal of satisfaction to both nurse, patient and family; 184 visits to medical and surgical patients and 88 for the purpose of health supervision.

Fees collected include 208 paid visits, 110 part pay, making \$418.00 D.V.A. cheque of \$12.75 and cheque from Cancer Society for \$47.50, making a grand total of \$479.25.

I was on vacation from Aug. 10 to the end of the month and Miss Julian from Hamilton Branch relieved for me. Once again we are indebted to Miss Sanderson for supplying relief for us on a minute's notice.

I would like to welcome Miss Janzen to our staff. We feel we are fortunate in securing Miss Janzen for Lincoln County. She comes to us fully qualified with previous V.O.N. experience, and has had considerable experience in England, Italy, Holland and Germany with Rehabilitation Programme which has no doubt afforded her excellent experience in Public Health Services.

Visits in the various parts of the County are as follows:

June	July	Aug.
Grantham	182	174
Port Dalhousie	24	42
Niagara	44	44
Louth	53	57
Niag.-on-the-Lake	17	19

Smithville	11	7

Total

735

778

233

In June, 1948, 513 visits were made to 242 patients and fees collected totalled \$322.25. In June of this year 733 visits were made to 170 patients and fees collected totalled \$420.75.

In July, 1948, 184 patients received 487 visits and fees collected were \$220.25. In July, 1948, 214 patients receive 778 visits and fees collected were \$410.80.

In August, 1948, 164 patients received 485 visits and fees collected were \$234.00. In August, 1948, 239 patients received 823 visits and fees collected were \$478.25.

The total number of visits for June, July and August, 1948, were 1,005 as compared with 2,336 in 1947. Total fees collected in 1948 were \$786.50 as compared with \$1,329.00 in 1947.

The first oil pipeline was of wood construction, five miles long, and had a capacity of 800 barrels daily.

"CANADA UNLIMITED"

The small circle of Micmac Indians on Isle de St. Croix Native intent to move elsewhere. They were learning to read and write. The year was 1606—Lescarbot was Canada's first teacher.

In 1632, Canada's first college was started at Port Royal. A Huron Indian, Louis Vincent Schuttenham, was the first Canadian to receive a Bachelor of Arts degree. He graduated from Dartmouth College in 1761.

At Quebec in 1629, students paid \$2 a year for tuition—board cost \$80. Teachers received an average of \$90 a year.

Education in Canada has grown with rapid strides. Now over one hundred and fifty thousand Canadians attend universities and colleges throughout the country. The future of the Canadian people goes hand in hand with pursuit of knowledge. Education increases opportunity. Yes, there's room to grow—in Canada Unlimited.

Just how much room is left in "Canada Unlimited", an illustrated 144 page book published by the O'Keefe Foundation. You may obtain your copy by sending 25c in cash (no stamps or cheques, please) to "Canada Unlimited", Dept. M-16, O'Keefe House, Toronto, Ontario. Please print your name and address clearly. All money received will be donated to the Canadian Citizenship Council.

O'KEEFE'S

BREWING COMPANY LIMITED

A council of service, welfare, labour, fraternal and other organizations whose aim is to expand our Canadians with the opportunities offered by democratic citizenship in Canada.

Stuff Round Town

By GORD McGREGOR

Idle observations: The flies are more abundant on our desk than at any other time during the summer. Guess the cool weather is driving them inside. The fly has a pretty macabre life come to think of it. If he survives the summer he comes inside only to be greeted by the swat of a swatter or the hiss of a flit gun. Surviving this he crawls into somebody's attic to spend a lonely winter which he probably won't survive anyway.

But on the other hand the fly will probably not be affected by all this devaluation stuff—which makes the good old fly a pretty lucky chappie. Of course at this point we average citizens don't really know how we will be affected either. 'Tis rumoured among other things that English cars will be considerably cheaper here in Canada. This is great news for anyone who cares to ride around in these portable sewing machines—but it is not much interest to those of us who still like a car that at least looks like it will not swoon at the mere sight of a small tree or even a large tree. Speaking of trees, a tree is something that grows for a hundred years only to suddenly leap in front of a woman driver.

One thing certain ye old Canadian government sure does not wish us carefree citizens to visit the United States. Come to think of it—why should we. The cost of living is higher, the drinks have more water content than our own, and you can't get a reservation in Florida unless you are "sick or a rich fruit farmer."

Betcha that fly just mangled with an old copy of the Financial Post would not even bother going to the States either. He sure won't bother now. Just at this point we receive a notation—written by hand, that Grimsby will remain on Daylight Saving Time until further notice. This, of course, opens up great gobs of controversy. Some of us are again it—others say it's just the ticket. Dave Thompson of the Hydro says it will probably lessen the possibility of having power interruptions this fall and winter. It is clever of the officials to get together and decide that we shall all stay on the one time at any rate. It would be cozy to have Toronto and Hamilton on different standards and a town like this trying to keep an even keel with those two great (loosely used) cities.

Nor can we pass up the tragic disaster of the Noronic. A catastrophe that was easily abused by the sub-sisters of the daily papers, and a story grossly exaggerated by the American press.

Locally we note that former Constable Davis has now been given the sack, and efforts are being made to replace him. Meanwhile Chief James and Constable Rathbone are splitting the 24-hour shift as best they can. Some day maybe we shall have peace and quiet on the police front. Horrons banish the thought—it makes such good news for the front page of a weekly.

Then, of course, there is always Mr. Bonham to help keep the chill off the monthly Council meetings.

As a parting gesture we respectfully brush the flies away from the portrait of Sir John A. and note that we have passed from summer to autumn—Pop McVicar has been in to discuss the hockey situation. "Swat."

BIG U.K. APPLE CROP

The total yield from the present apple crop in the United Kingdom is estimated at 470,000 tons, or approximately 26.3 million bushels. The ten-year average from 1939 to 1948 was 326,000 tons, or 18.4 million bushels, and the five-year average from 1934 to 1938 was 10.6 million bushels.

The lengthy period of dry weather over the southern part of England, where the greater portion of orchard acreage is located, appears to have affected only the dessert apples, now being marketed but the more important varieties have been undamaged.

The Sunday School was started in Gloucester, England, in 1753.

MAYOR WAS DELAYED

(St. Catharines Standard)

Mayor Richard Robertson was in Grimsby, Saturday night attending a banquet at which Miss Canada was the guest of honor. The Mayor has accepted the invitation of the Grimsby Mayor and Council in the firm belief that he would be back in St. Catharines in plenty of time to attend the Optimist Club draw at 11 o'clock. However, the proceedings at Grimsby were delayed and the Mayor was caught at the head table, unable to leave while Miss Canada was singing. Later His Worship tried to telephone the armory, and failing to get an answer called a taxi company and asked them to deliver the message to the Optimists at the armory. In the meantime the Optimists had been forced by the passage of time to proceed with the draw.

COUNTY COUNCIL IN SESSION

Warden Leslie Lymburner, Reeve of Caistor Township, opened the September session of the Lincoln County Council in St. Catharines this morning with only one item of correspondence on the agenda for discussion during the meeting.

The council was requested by the St. Catharines and Lincoln Game and Fish Protection Association to set Wednesday, November 2, and Friday and Saturday, November 4 and 5 as the days for pheasant shooting this fall. In the letter to council, Mr. William A. English, secretary of the Association, also recommended that the hours for shooting be from 7 a.m. until 5 p.m., and that the quota be three cock birds per day.

The Association expressed the view that the single day of shooting on Wednesday, November 2, would give merchants throughout the county the opportunity of enjoying their half-holiday by pheasant shooting and that the extra day this year would not lower the number of birds to any great extent. The request of the Association will be dealt with by the council at the sessions of the Agriculture Committee.

Following the opening open session this morning, the council went into committee of the whole as the general administration committee, under the chairmanship of Reeve Ivan Buchanan of Grantham Township, to discuss repairs to the barn at the county jail.

Nearly 50 varieties of meat and meat products, ranging from cocktail sausages to whole hams, are now packed in metal cans, the American Can Company reports.

BREVITIES

EVENTS and TOPICS of the WEEK in TABLOID . . .

Smithville Fair tomorrow and Saturday.

DO NOT turn your clocks and watches back on Saturday night. Daylight Saving Time is going to continue in Grimsby.

Tomorrow, Sept. 23rd, is the day the I.O.D.E. sends its annual donation of fruit to Sunnybrook Hospital.

There will be a reunion of old first war veterans at The Village Inn on Thursday night of next week when members of old "B" Company, 86th Batt., will hold a get-together.

Grimsby Lawn Bowling Club are holding a Scotch Doubles Tournament on the local greens on the evening of Thursday, September 26, starting at seven o'clock. Don't forget the I.O.D.E. Tag Day next Saturday, Sept. 24th.

Although he's been busy, Friend Stork has been taking things a little easier in St. Catharines. He delivered only 57 new citizens during August, as compared with 72 in 1948. Resident deaths last month totalled 18, one less than for the same month last year.

We have received a postcard from Hamilton bearing the following message, but no name:

"As I am leaving Hamilton my address will be R.R. No. 2, Holloway, Ont."

If the writer will send us his name, we shall be glad to make the necessary change on our mailing list.

FOUR BEAMSVILLE STUDENTS WIN \$400 OF WOODRUFF BOUNTY

Robert Carlyle, Jack Dirkson, Ernie Koop and Ron Migna, high school students up to the end of the 1948 term, have each been awarded \$400 from Dr. Haynes Woodruff bounty, which will enable them to continue their chosen subjects at Western, two at Queens and one at Toronto University respectively. Bob Carlyle is entering university for the physics course and the other three for engineering. Ernie Koop was already the recipient of the Dominion-Provincial scholarship of \$400 making \$800 in scholarships won by this high school student this year.

The objects and purposes of the trust are to assist, in each year, one or more boys of good moral character, residents of St. Catharines or its surrounding vicinity, who desire to obtain a technical education or to learn a useful trade which they are prevented from without financial assistance.

SMITHVILLE FAIR IS FRIDAY AND SATURDAY

(Smithville Review)
This year Smithville promises to have one of the finest and best fairs ever to be held as the directors and all those connected with the Society have worked hard preparing for this big coming event. They have improved their facilities and greatly increased their prize money in nearly every class of entries. They have a good line of attractions for Friday evening and all day Saturday.

COMMUNITY HALL

BEAMSVILLE

FRIDAY, OCTOBER 7th, 1949

DANCING 9 - 1

Friday

evening they are having the big monstrous Calithumpian Parade starting at 6:30 p.m. and being led by the Welland Citizen's Band. There are prizes for floats best dressed and comic dressed persons, best decorated car, worst turn out, and many other things that go into the parade. After the parade is over, Killin's orchestra will furnish the music for the big platform dance being held at the Fair Grounds. The children will enjoy the rides and games on the midway while ye old folk dance.

On Saturday to start it off is the School Parade from the S. S. No. 12 Public School and led by the Welland Band. There is the exciting Ball Tournament and the thrilling Horse Races. They are having the starting gates to give each horse a fair break. They have increased the prize money on the horse racing a great deal, so you should see some good races. They are having the big livestock parade. Come, See and Enjoy yourself at Smithville's Biggest and Largest Fair Ever.
